PROFILE

Brand and Logo development is one my favorite aspects of Graphic Design. Brands are created to be long lasting and the first thing that consumers remember about a business. My philosophy concerning branding with my clients is that they can have a beautiful mark, but this is 40% design—the rest is what the business brings with the mark. Some people expect the logo to do all the work, but the business has to shine to give the mark a stronger brand meaning.

WORK EXPERIENCE

2011 - PRESENT FREELANCE DESIGNER & FOUNDER // Mind Is Power (MIP) Design

- Develop graphics for product illustrations, logos, and websites
- Advise clients on strategies to reach a particular audience
- Incorporate changes recommended by the clients into the final design
